Dear Lee Family,

I can design a new bedroom for you. There is a big soft colourful bed with two pillows on it. You can sleep and read books on it. There is also a big orange wardrobe. You can put away clothes.

There is also a brown desk with a yellow computer on it. You can send emails and play computer games with it.

There is also a tiny hard colourful lamp in the room. When it is dark, you can use the lamp to brighten the room up.

Do you like the new bedroom?

Jessica
