

# The Magic Science Museum

by Sharmeen

I go to the Science Museum in the morning by car.

On the first floor, there is a computer room. I play on the computer. A cat walks out. On the second floor, there is a canteen. I eat ice cream.

On the fourth floor, there is a mirror room. I see some funny pictures. I look in them. I see a flying dolphin. On the fifth floor, there is a picture room. I touch the picture. The cat jumps out. I play with them.

I am excited. The Science Museum is beautiful.
