

# Summer Holiday Plan

by Qiu Yong Chao, Edwin 6B

Summer holiday is coming soon. This is a very special summer holiday because I will go to a secondary school in September. I want to prepare myself for the secondary school and make good use of the time.

I want to improve my English and be taller. I will read more English books. I want to learn cooking, make new friends, go ice-skating and improve my computer skills. I think learning new things is fun. I want to learn ice-skating because it can keep me healthy. I will ask my sister to teach me how to improve my computer skills.

I hope this summer holiday is meaningful and interesting. Planning my summer holiday will make me use the time wisely.
