

# My Dream Job

6A Chan Chor Yui Yuri

I want to be an actress when I grow up because I love acting and I am good at acting. If I become an actress, I will make people happy and I will become famous.

Actresses need to be good-looking. They need to be hard-working so that they can recite the lines.

Actresses also need to be passionate about acting so that they can be good actresses.

I think this job is suitable for me because I love acting and I am good at it. My memory is also good so I can recite the lines.

I hope I can be a good actress.
