

My Dream Job

6A Fung Kam Hei Hailey

My dream job is to be a lawyer when I grow up. I want to help those weak people and those who are in trouble. I think that is challenging and meaningful. If I become

a lawyer, maybe I will wear the black gown and the white wig. It's cool!

Lawyers need to be attentive to details and should not be shy. They also need to be persuasive and good at devating so that they can help people win even in the most difficult lawsuits.

I think this job is suitable for me because I'm good at English and Chinese. I'm fearless too. I think a lawyer needs to be bold and confident; otherwise, when speaking in front of a judge, he will speak like a little mouse facing a cat. I will practise speaking loudly and clearly.

I hope some day I can be the best lawyer in the world.
