

My Dream Job

6A Wong Ka Yun Mary

I want to be a vet when I grow up because it is a meaningful job. If I become a vet, I'll save a lot of sick animals.

Vets need to be attentive and calm. They need to be attentive and calm so that they can save animals.

I think this job is suitable for me because I'm attentive. I'm hard-working and caring too.

I hope I can be a good vet.
