Oh, no! Mr Lo!

On Wednesday morning, Mr Lo, Polly, Rose, Joe, Danny and Betty did a project. They did research on computer at school. They were excited. They shouted, 'Hurray!'

Next they made a gold machine. They used cardboard boxes, cans, a bowl and a cone to make the machine. Suddenly, the machine ate Mr Lo. Mr Lo was very surprised.

Then Mr Lo became very tiny. He screamed, 'Help!' The students helped him. They were worried.

They destroyed the old machine and made a new one. The new machine put Mr Lo into his mouth and he became big again. All of the students were happy because Mr Lo became big.
