

My Birthday Party

Weather: Sunny

Date: 5th February, 2018

I held a birthday party at the beach last Sunday. My friends, cousins and sister came to my party. My mother made some food. She brought the food and took me to the beach. We had a big meat pizza. It was very yummy! My dad brought some spicy chicken wings for us.

We went running on the sand and swam in the huge blue sea together. My cousin gave me a box of puzzles. It was interesting. My sister gave me a cute doll. My friends gave me some birthday cards. I was very joyful.

I was amused because the food was the most delicious that I had ever eaten. I had a funny birthday party.
