

Yesterday I visited the Sunshine Old People's home. Some of the children were talking to the old people. Some of them were playing Chinese chess with the old people. They were very excited. It was meaningful.

The elderly people were sitting in the room while we were giving gifts to the elderly. But we did not have enough gifts.

Finally Peter saw there were some chocolate, cream, milk and sugar in the kitchen. So he used his creative idea to make the yummy chocolate to eat together. We were very full and satisfied. It was a meaningful day for me.
