

## My Dream Job

I want to be a teacher when I grow up because I can help the needed students. If I become a teacher, I will get high salary.

Teachers need to be caring so that they can take care of students especially those P.1 students. They need to be creative so that they can make interesting lesson plans. So I want to be a teacher.

I think this job is suitable for me because I am patient and experienced. I like taking care of P.1 students. I hope I can be a teacher some day.
