

My Dream Job

I want to be a doctor when I grow up because this is a high salary job. If I become a doctor, I will save more people. Also I can wear beautiful uniform.

Doctors need to be experienced so that they can get high salary. They need to work with others too. Also they need to have good eyesights because they need to do surgeries. Besides, they need to be caring and patient too.

I think this job is suitable for me because I have high qualification and this job can earn a lot of money. I hope I can be a doctor some day.
