

My Favourite Transport in Hong Kong

My favourite transport in Hong Kong is LRT. LRT is one of the most convenient transport systems in Tuen Mun. I usually travel from my home to Tuen Mun Town centre by it. There are many stations in different lines which cover not only Tuen Mun area but also Yuen Long and Tin Shui Wai.

Travelling by LRT is inexpensive, fast and comfortable. It only takes five minutes for me to walk from my house to the nearest station.

There is one important rule when we are taking LRT. We can only use the ticket for one way. If we have to travel the other way, we must buy a new ticket.
